

# Cabot Corp Reports Fourth Quarter Diluted EPS of \$0.55 and Adjusted EPS of \$1.05

November 4, 2019

Fiscal Year 2019 Diluted EPS of \$2.63 and Adjusted EPS of \$3.91

BOSTON--(BUSINESS WIRE)--Nov. 4, 2019-- Cabot Corporation (NYSE: CBT) today announced results for its fourth quarter and full fiscal year 2019.

#### **Key Highlights**

- Diluted EPS for the fourth quarter of \$0.55; Adjusted EPS of \$1.05, up 5% versus prior year
- . Strong full year segment EBIT results in Reinforcement Materials despite China headwinds
- Full year operating cash flow of \$361 million; free cash flow of \$137 million
- Returned \$253 million to shareholders in fiscal 2019 through dividends and share repurchases

Commenting on the results, Cabot President and CEO Sean Keohane said, "While fiscal 2019 results are not what we originally expected, we delivered a strong fourth quarter of Adjusted EPS and largely offset various headwinds to achieve solid full year operating results. I am particularly proud of our employees around the world who drove growth in new business revenues, managed raw material volatility through strong commercial execution, and aggressively reduced costs. These activities helped to mitigate the impact of ongoing weakness in the Chinese business environment, continued softness in global automotive production and de-stocking across many of our value chains."

Keohane continued, "During the year, we delivered strong free cash flow, increased the quarterly dividend by 6% and returned a significant amount of cash to shareholders. We also focused the portfolio through the divestiture of the Specialty Fluids business and remained committed to our long-term strategic growth investments. Our strong cash generation and solid balance sheet position us well in this current economic environment."

#### **Financial Detail**

For the fourth quarter of fiscal 2019, net income attributable to Cabot Corporation was \$33 million (\$0.55 per diluted common share). Net income includes a total after-tax per share charge from certain items of \$0.50. Adjusted EPS for the fourth quarter of fiscal 2019 was \$1.05 per share.

## Segment Results

Reinforcement Materials – Fourth quarter fiscal 2019 EBIT in Reinforcement Materials increased by \$7 million compared to the fourth quarter of fiscal 2018. The increase in EBIT was driven by higher volumes, improved pricing and product mix from our calendar 2019 customer agreements and lower costs. These impacts were partially offset by weaker spot pricing in Asia. Globally, volumes increased 2% year-over-year primarily due to growth in Asia and the Americas, as indicated in the table below.

|   | Fourth Quarter<br>Year-over-Year Change |
|---|---|
| Changes in Global Reinforcement Materials Volumes | s 2%                                    |
| Asia  | 3%                                      |
| Europe, Middle East, Africa                       | (4)%                                    |
| Americas  | 3%                                      |

Performance Chemicals – Fourth quarter fiscal 2019 EBIT in Performance Chemicals increased by \$1 million compared to the fourth quarter of fiscal 2018, primarily due to higher volumes. Year-over-year, volumes increased by 14% in the Formulated Solutions business due primarily to growth in our specialty compounds product line. Volumes in the Performance Additives business decreased by 3% year-over-year driven by lower sales in the specialty carbons product line, partially offset by higher volumes in the fumed metal oxides product line from the start-up of our new facility in Wuhai, China. The higher volumes were partially offset by a less favorable product mix primarily in our specialty carbons product line from lower demand in automotive applications.

**Purification Solutions** – Fourth quarter fiscal 2019 EBIT in Purification Solutions increased by \$4 million compared to the fourth quarter of fiscal 2018 due to higher margins from improved pricing and product mix and lower fixed costs as a result of the transformation plan we implemented this year.

Cash Performance – The Company ended the fourth quarter of fiscal 2019 with a cash balance of \$169 million. During the fourth quarter of fiscal 2019, cash flows from operating activities were \$195 million, which included a \$98 million decrease in net working capital. Capital expenditures for the fourth quarter of fiscal 2019 were \$69 million. Additional uses of cash during the fourth quarter included \$20 million for dividends and \$29 million for repurchases of our common stock.

Taxes – During the fourth quarter of fiscal 2019, the Company recorded a tax charge of \$27 million for an effective tax rate of 41% and an operating tax rate of 24%. The charge included a \$2 million net charge from tax-related certain items. Our operating tax rate for fiscal 2020 is expected to be in the range of 24% to 25%.

#### **Outlook**

Commenting on the outlook for the Company, Keohane said, "Looking forward to 2020, we don't yet see catalysts to improve the weak macroeconomic conditions and expect a challenging first quarter as customers aggressively manage their year-end inventory levels. Factors expected to positively impact our fiscal 2020 results include the benefits from a full year of the new China fumed silica plant and favorable outcomes of calendar year 2020 Reinforcement Materials customer agreements. We will continue to manage through the volatility in feedstock costs as a result of the new International Marine Organization (IMO) regulation that is impacting both the Reinforcement Materials and Performance Chemicals segments. We expect that Purification Solutions results will improve year-over-year as the benefits from the transformation plan continue. With the sale of the Specialty Fluids business in fiscal 2019, we will not have any EBIT contribution from this business in fiscal 2020. Thus, overall we anticipate fiscal year 2020 adjusted earnings per share to be in the range of \$3.60 to \$4.10. The mid-point of this range reflects a growth rate of 7% as compared to fiscal 2019 results, excluding the Specialty Fluids segment."

Keohane continued, "Our long-term growth strategy and capital allocation framework will guide our actions and are underpinned by strong cash flow discipline and the strength of our investment grade balance sheet. We will continue to invest in attractive growth projects across our core segments and we remain committed to returning cash to our shareholders. I remain confident in the fundamental earnings power of our businesses and our long-term growth prospects."

## **Earnings Call**

The Company will host a conference call with industry analysts at 2:00 p.m. Eastern time on Tuesday, November 5, 2019. The call can be accessed through Cabot's investor relations website at <a href="http://investor.cabot-corp.com">http://investor.cabot-corp.com</a>

#### **About Cabot Corporation**

Cabot Corporation (NYSE: CBT) is a global specialty chemicals and performance materials company, headquartered in Boston, Massachusetts. The company is a leading provider of <u>rubber</u> and <u>specialty carbons</u>, <u>activated carbon</u>, <u>inkjet colorants</u>, <u>masterbatches and conductive compounds</u>, <u>fumed silica</u>, and <u>aerogel</u>. For more information on Cabot, please visit the company's <u>website</u> at: <a href="http://www.cabotcorp.com">http://www.cabotcorp.com</a>. The Company encourages investors and potential investors to consult the Cabot website regularly.

Forward-Looking Statements -- This earnings release contains forward-looking statements. All statements that address expectations or projections about the future, including with respect to our performance in fiscal 2020, including for Adjusted EPS for fiscal 2020 and the factors we expect to positively impact our results, our operating tax for fiscal 2020 and capital management plans, are forward-looking statements. These statements are not guarantees of future performance and are subject to risks, uncertainties, potentially inaccurate assumptions, and other factors, some of which are beyond our control and difficult to predict. If known or unknown risks materialize, or should underlying assumptions prove inaccurate, our actual results could differ materially from past results and from those expressed or implied by forward-looking statements. Important factors that could cause our results to differ materially from those expressed or implied in the forward-looking statements include, but are not limited to volatility in the price of energy and raw materials; competition from other specialty chemical companies; safety, health and environmental requirements; a significant adverse change in a customer relationship; negative or uncertain worldwide or regional economic conditions; unanticipated delays in site development projects; fluctuations in foreign currency exchange and interest rates; and changes in global trade policies. These factors are discussed more fully in the reports we file with the Securities and Exchange Commission ("SEC"), particularly under the heading "Risk Factors" in our annual report on Form 10-K for our fiscal year ended September 30, 2018, filed with the SEC at <a href="https://www.sec.gov">www.sec.gov</a>. We assume no obligation to provide revisions to any forward-looking statements should circumstances change, except as otherwise required by securities and other applicable laws.

## **Use of Non-GAAP Financial Measures**

To supplement Cabot's consolidated financial statements presented on a generally accepted accounting principle ("GAAP") basis, the preceding discussion of our results and the accompanying financial tables report Adjusted EPS, Total Segment EBIT, Total Segment EBITDA, Adjusted EBITDA, Adjusted EPS excluding the Specialty Fluids segment, our operating tax rate, Free Cash Flow and Discretionary Free Cash Flow, all of which are non-GAAP financial measures. These non-GAAP financial measures are not computed in accordance with, or as an alternative to, GAAP. Reconciliations of Adjusted EPS to net income (loss) per share attributable to Cabot Corporation, the most directly comparable GAAP financial measure, Total Segment EBIT, Total Segment EBITDA, and Adjusted EBITDA to income (loss) from continuing operations before income taxes and equity in earnings of affiliated companies, the most directly comparable GAAP financial measure of each such non-GAAP measure, operating tax rate to effective tax rate, the most directly comparable GAAP financial measure, and Discretionary Free Cash Flow to Cash flow from operating activities, the most directly comparable GAAP financial measure, are provided in the tables titled "Cabot Corporation Certain Items and Reconciliation of Adjusted EPS and Operating Tax Rate" and "Cabot Corporation Reconciliation of Non-GAAP Financial Measures."

Management believes these non-GAAP measures provide investors with greater transparency to the information used by Cabot management in its financial and operational decision-making, allow investors to see Cabot's results through the eyes of management, and better enable Cabot's investors to understand Cabot's operating performance and financial condition.

Adjusted EPS. In calculating Adjusted EPS, we exclude from our net income (loss) attributable to Cabot Corporation items of expense and income that management does not consider representative of the Company's business operations. Accordingly, reporting earnings on an adjusted basis supplements the GAAP measure of performance and provides additional information related to the underlying performance of the business. For example, certain of the items we exclude are items that we are required by GAAP to recognize in one period that relate to activities extending over several periods or relate to single events that management considers to be unusual and infrequent, although not necessarily non-recurring. We refer to these items as "certain items." Management believes excluding these items facilitates operating performance comparisons from period to period by eliminating differences caused by the existence and timing of certain expense and income items that would not otherwise be apparent on a GAAP basis and evaluates the Company's operating performance without the impact of these costs or benefits. Management also uses Adjusted EPS as a key measure in evaluating management performance for incentive compensation purposes.

The items of income and expense that we have excluded from our calculations of Adjusted EPS, as applicable, but that have been included in our GAAP net income (loss) per share, as applicable, are described below.

- Asset impairment charges, which primarily included charges associated with an impairment of goodwill or other long-lived assets.
- Inventory reserve adjustment, which resulted from an evaluation performed as part of an impairment analysis.
- Global restructuring activities, which included costs or benefits associated with cost reduction initiatives or plant closures and were primarily related to (i) employee termination costs, (ii) asset impairment charges associated with restructuring actions, (iii) costs to close facilities, including environmental costs and contract termination penalties, and (iv) gains realized on the sale of land or equipment associated with restructured plants or locations.
- Legal and environmental reserves and matters, which consisted of costs or benefits for matters typically related to former businesses or that were otherwise incurred outside of the ordinary course of businesss.
- Gains (losses) on sale of investments, which primarily related to the sale of investments accounted for under the cost-method.
- Gains (losses) on sale of businesses
- Executive transition costs, which included incremental charges, including stock compensation charges, associated with the retirement or termination of employment of senior executives of the Company.
- Acquisition and integration-related charges, which included transaction costs, redundant costs incurred during the period of
  integration, and costs associated with transitioning certain management and business processes to Cabot's processes.
- Non-recurring gains (losses) on foreign currency, which primarily related to the impact of continued currency devaluations on our net monetary assets denominated in that currency.

Cabot does not provide a target GAAP EPS range or reconciliation of the Adjusted EPS range with a GAAP EPS range because, without unreasonable effort, we are unable to predict with reasonable certainty the matters we would allocate to "certain items," including unusual gains and losses, costs associated with future restructurings, acquisition-related expenses and litigation outcomes. These items are uncertain, depend on various factors, and could have a material impact on GAAP EPS in future periods.

**Total Segment EBIT.** Total segment EBIT reflects the sum of EBIT from our four reportable segments. In calculating Total segment EBIT we exclude from our income (loss) from continuing operations before income taxes and equity in earnings of affiliated companies, certain items and items that, because they are not controlled by the business segments and primarily benefit corporate objectives, are not allocated to our business segments, such as interest expense and other corporate costs, which include unallocated corporate overhead expenses such as certain corporate salaries and headquarter expenses, plus costs related to corporate projects and initiatives.

Total Segment EBITDA. Total Segment EBITDA is equal to Total Segment EBIT (as defined above), but further adjusted for depreciation and amortization.

Adjusted EBITDA. Adjusted EBITDA reflects Total Segment EBITDA and is further adjusted for unallocated corporate costs, which included unallocated corporate overhead expenses such as certain corporate salaries and headquarter expenses, plus costs related to corporate projects and initiatives.

Free Cash Flow. To calculate "free cash flow" we deduct capital expenditures from cash flow from operating activities.

**Discretionary Free Cash Flow.** To calculate "Discretionary Free Cash Flow" we deduct sustaining and compliance capital expenditures and changes in Net Working Capital from cash flow from operating activities.

Operating Tax Rate. Our "operating tax rate" represents the tax rate on our recurring operating results. This rate excludes discrete tax items, which are unusual or infrequent items that are excluded from the estimated annual effective tax rate and other tax items, including the impact of the timing of losses in certain jurisdictions, cumulative tax rate adjustments and the impact of the items of expense and income we identify as certain items on both our operating income and the tax provision. Management believes that the operating tax rate is useful supplemental information because it helps our investors compare our tax rate year to year on a consistent basis and to understand what our tax rate on current operations would be without the impact of these items.

Cabot does not provide a forward-looking reconciliation of the operating tax rate range with an effective tax rate range because, without unreasonable effort, we are unable to predict with reasonable certainty the matters we would allocate to "certain items," including unusual gains and losses, costs associated with future restructurings, acquisition-related expenses and litigation outcomes. These items are uncertain, depend on various factors, and could have a material impact on the effective tax rate in future periods.

#### **Explanation of Terms Used**

**Product Mix.** The term "product mix" refers to the mix of types and grade of products sold or the mix of geographic regions where products are sold, and the positive or negative impact this has on the revenue or profitability of the business or segment.

Net Working Capital. The term "net working capital" includes accounts receivable, inventory and accounts payable and accrued liabilities.

## Weighted average common shares outstanding

Diluted (C) 57.6 61.7 58.8 61.7 (A) Beginning in fiscal 2019 as part of the adoption of the new accounting standard for revenue recognition, the Company now presents revenue from by-products produced in manufacturing operations in Net sales and other operating revenues, which in prior years was included as a reduction in Cost of sales. (B) Fiscal 2018 amounts have been recast to reflect the retrospective application of the Company's adoption of the new accounting standard that amends the presentation of net periodic pension and postretirement benefit costs. This adoption resulted in an increase in Cost of sales of \$2 million and \$9 million, an increase in Selling and administrative expenses of \$1 million and \$3 million, and an increase in Other income (expense) of \$3 million and \$12 million for the three and twelve months ended September 30, 2018, respectively. (C) The weighted average common shares outstanding used to calculate earnings per share for the twelve months ended September 30, 2018 excludes approximately 1 million shares as those shares would be antidilutive due to the Company's net loss position.

## Fourth Quarter Earnings Announcement, Fiscal 2019

- (A) In October 2018, the Company realigned its business reporting structure under the Performance Chemicals segment and now combines the specialty carbons, furned metal oxides and aerogel product lines into the Performance Additives business, and the specialty compounds and inkjet product lines into the Formulated Solutions business. Prior period Performance Chemicals segment revenues have been recast to reflect the realignment.
- (B) Unallocated and other reflects royalties, other operating revenues, external shipping and handling fees, the impact of the corporate adjustment for unearned revenue, the removal of 100% of the sales of an equity method affiliate, and discounting charges for certain Notes receivable. Beginning in fiscal 2019 as part of the adoption of the new accounting standard for revenue recognition, the Company now presents revenue from by-products produced in manufacturing operations in Unallocated and other.
- (C) Segment EBIT is a measure used by Cabot's Chief Operating Decision-Maker to measure consolidated operating results, assess segment performance and allocate resources. Segment EBIT includes equity in earnings of affiliated companies, royalty income, and allocated corporate costs.
- (D) Details of Certain items are presented in the Certain Items and Reconciliation of Adjusted EPS and Operating Tax Rate table.
- (E) General unallocated income (expense) includes foreign currency transaction gains (losses), interest income, dividend income and the profit related to the corporate adjustment for unearned revenue.
- (F) The weighted average common shares outstanding used to calculate earnings per share for the twelve months ended September 30, 2018 excludes approximately 1 million shares as those shares would be antidilutive due to the Company's net loss position.
- (G) Adjusted EPS is a non-GAAP measure, and a reconciliation of Adjusted EPS to GAAP EPS is presented in the Certain Items and Reconciliation of Adjusted EPS and Operating Tax Rate table.

In October 2018, the Company realigned its business reporting structure under the Performance Chemicals segment and now combines the specialty carbons, fumed metal oxides and aerogel product lines into the Performance Additives business, and the specialty compounds and inkjet product lines into the Formulated Solutions business. Prior period Performance Chemicals segment revenues have been recast to reflect the realignment.

(A)

<sup>(</sup>B) Unallocated and other reflects royalties, other operating revenues, external shipping and handling fees, the impact of the corporate adjustment for unearned revenue, the removal of 100% of the sales of an equity method affiliate and discounting charges for certain Notes receivable. Beginning in fiscal 2019 as part of the adoption of the new accounting standard for revenue recognition, the Company now presents revenue from by-products produced in manufacturing operations in Unallocated and other.

(C) Segment EBIT is a measure used by Cabot's Chief Operating Decision-Maker to measure consolidated operating results, assess segment performance and allocate resources. Segment EBIT includes equity in earnings of affiliated companies, royalty income, and allocated corporate costs. (D) Details of certain items are presented in the Certain Items and Reconciliation of Adjusted EPS and Operating Tax Rate table. (E) General unallocated income (expense) includes foreign currency transaction gains (losses), interest income, dividend income and the profit related to the corporate adjustment for unearned revenue. (F) The weighted average common shares outstanding used to calculate earnings per share for all periods in fiscal 2018, except for the three months ended June 30 and September 30, 2018, excludes approximately 1 million shares as those shares would be antidilutive due to the Company's net loss position in those periods. Adjusted EPS is a non-GAAP measure, and a reconciliation of Adjusted EPS to GAAP EPS is presented in the Certain Items (G) and Reconciliation of Adjusted EPS and Operating Tax Rate table.

- (A) The tax effect of certain items is determined by (1) starting with the current and deferred income tax expense or benefit, included in Net income attributable to Cabot Corporation, and (2) subtracting the tax expense or benefit on "adjusted earnings". Adjusted earnings is defined as the pre-tax income attributable to Cabot Corporation excluding certain items. The tax expense or benefit on adjusted earnings is calculated by applying the operating tax rate, which includes both current and deferred taxes, as defined under the section Use of Non-GAAP Financial Measures of the earnings release.
- (B) This table indicates the line items where certain items are recorded in the Consolidated Statements of Operations.
- (C) Our operating tax rate for fiscal 2020 is expected to be in the range of 24% to 25%.
- (D) For fiscal 2019 and 2018, Impact of discrete tax items included a net discrete tax benefit of \$5 million and a net discrete tax expense of \$148 million, respectively. The nature of the discrete tax items fiscal 2019 and 2018 were as follows: (i) Unusual or infrequent items during fiscal 2019 and 2018 consisted of excludible foreign exchange gains and losses in certain jurisdictions and impacts related to stock compensation deductions. Additionally, fiscal 2019 included the impact of changes in valuation allowances on beginning of year tax balances and the tax impacts of a pension settlement, and fiscal 2018 included the net tax impacts of the Tax Cuts and Jobs Act of 2017 (net tax expense of \$159 million), cash management activities as well as impacts related to foreign exchange gain/loss on the remeasurement of a deferred tax liability; (ii) Items related to uncertain tax positions during fiscal 2019 and 2018 included net tax impacts from the reversal of accruals for uncertain tax positions due to the expiration of statutes of limitations and the settlement of tax audits, the accrual of interest on uncertain tax positions, and the accrual of prior year uncertain tax positions (fiscal 2018 only), and; (iii) Other discrete tax items during fiscal 2019 and 2018 included net tax impacts as a result of changes in non-US tax laws, various return to provision adjustments related to tax return filings and audit settlements as well as changes in valuation allowances on beginning of year tax balances (fiscal 2018 only).
- (E) Per share amounts are calculated after tax and, where applicable, noncontrolling interest, net of tax.
- (F) Due to the Company's net loss position, GAAP EPS for all periods in fiscal 2018, except for the three months ended June 30 and September 30, 2018, has been calculated using basic weighted average shares to avoid anti-dilution. However, in order to provide an Adjusted Non-GAAP EPS with a weighted average share figure that is consistent with all other periods presented, the Company has included this reconciling item to quantify the difference between basic and diluted weighted average shares. This reconciling item is applicable to individual periods presented but does not sum cumulatively. The net loss for the twelve months ended September 30, 2018 is driven by a discrete tax item and impairment charges, so the Company believes this approach provides the most comparable presentation possible.
