

## Cabot Corporation Introduces Optimized Charcoal Powder for Skin, Hair and Oral Care

September 27, 2018

*NORIT® SX SUPER S charcoal powder is specifically designed to meet the high purity requirements for cosmetics ingredients*

BOSTON--(BUSINESS WIRE)--Sep. 27, 2018-- [Cabot Corporation](#) (NYSE: CBT), a leading global specialty chemicals and performance materials company, today introduced NORIT® SX SUPER S charcoal powder – a high purity charcoal powder that meets stringent industry polycyclic aromatic hydrocarbons (PAH) specifications for use by the [cosmetics industry](#). Demand for high purity charcoal is rising due to its abrasive, adsorptive and opacifying properties in a range of consumer products such as skin cleansers, toothpaste, shampoos and conditioners.

“Our charcoal powders deliver exceptional performance advantages in a range of consumer applications such as face scrubs that combine the ingredient’s abrasive and adsorptive properties to effectively exfoliate and remove oil from skin,” said David Flannery, global segment manager for the pharmaceutical segment. “We use high purity sustainable feedstocks, activation methods and washing steps to yield ultra-high purity grades such as our new NORIT SX SUPER S charcoal powder. As an added quality assurance measure, we exceed strict industry standards with meticulous finished-product purity testing.”

Cabot will feature its NORIT SX SUPER S charcoal powder at stand A90 in Hall 5 at the CPhI Worldwide 2018 exhibition in Madrid, Spain from October 9-11, 2018. Other featured products include [activated carbon](#) used for the purification of active pharmaceutical ingredients, medicinal treatment of gastro-intestinal issues and acute poisoning, and efficient and economical catalyst support. Cabot will also have a variety of sample kits available for the purification of lead pharmaceutical compounds and precious metal catalyst support.
