

Cabot Norit Activated Carbon to Increase Prices for Activated Carbon Globally

June 24, 2021

BOSTON – June 24, 2021 – Effective for all shipments made on or after August 1, 2021, or as customer contracts allow, Cabot Norit Activated Carbon will increase prices globally for all activated carbon products. Price increases will range from 10 percent to 20 percent, depending on the specific activated carbon product and region.

The price increase is necessary to address escalating raw material, transportation and other operating costs. The price increase will enable Cabot Norit to continue to support investments in product and application development. Furthermore, it will ensure that Cabot Norit remains a reliable, long-term supplier of high-quality activated carbon products and services to its customers.
